Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach an oversampling modulator in which an output signal (third) signal from a quantizer is fed back to a delay means to an input of a subtraction unit that outputs a difference between the upper bit of the digital input signal and the delayed signal from the quantizer, the output of the subtraction unit is added to the lower bit of the digital input signal and is supplied to the input of the quantizer and fed back to another delay means to the input of the modulator to be added to the digital input signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Peguy JeanPierre whose telephone number is (571) 272-1803. The examiner fax phone number is (571) 273-1803.
